This packet contains all of your work for today along with links to online resources. Parents, please send me an email with a snapshot of completed work for the day for any work that has been handwritten. My number is (928) 716-0000. My email is: [rudyh@bagdadschools.org](mailto:rudyh@bagdadschools.org) . PLEASE do not hesitate to contact me if you have any questions as I am here to serve your family for your student's educational needs through this time. I am happy to work out any technology or educational issues that come up! We are all in this together! I am fine with one photo of all work for the day, but I must be able to see all the answers on each page. Parents: Please note that there are TWO ReadWorks assignments each day. I have included this agenda checklist to help everyone see what assignments need to be completed each day for each student. Also, note there are TWO pages for math each day this week.

### **Reading**

ReadWorks-Assignment: "Do You Have Good Posture?" AND Vocabulary, and Comprehension Questions (all completed online) Please go to [www.readworks.org/Student](http://www.readworks.org/Student)

Class Code VBK6M4

Each day there will be a new story. Please have your child read this at least three times. It does have an audio component if your child is struggling. They may listen to the story, but it is important that they read it on their own at least two times. Click on vocabulary and review vocabulary words. They will then need to answer the comprehension questions. Please remind students to go back to the story to find their answers. This will automatically be sent to me.

### **Writing**

ReadWorks Writing Assignment-Please log in to ReadWorks again and go to Article of the Day. Today they will read the next article. Students are used to this routine using print articles and our Book of Knowledge format.

Please read through each article 2 times. They follow along during the first read aloud. During the second read aloud, they underline at least two interesting or important facts they would like to add to their Book of Knowledge. For this assignment, you may have your student type the facts online or you may have them write the two facts. If you have them write the facts, please send it via one email per day with all assignments for the day.

**Here is the article for today:**

# Fun in the Sun

## Play It Safe

### Follow the tips below to have a super summer.

Grab your beach towel, sunglasses, and sunscreen! Summer is just around the corner. It starts on June 21. For most kids, that means more time to play outside and have fun.

Experts say that more injuries occur during the summer months. Follow these tips to make sure you stay safe while enjoying the season.

## Sun Safety

Ariel Skelley for Weekly Reader

*Apply sunscreen every two hours, say experts.*

Many kids will spend hours playing outside in the summer sun. Be careful, though. The sun's harmful rays can cause damage to your skin and eyes.

If you are out in the sun, be sure to wear sunscreen. It should have a sun protection factor (SPF) of 15 or higher, say experts. Make sure you rub it in everywhere your skin is showing.

You should also wear a hat and sunglasses that protect against the sun's harmful rays. Better yet, play in the shade!

## Water Rules

George Shelley/Masterfile

You can beat the heat by splashing in a pool. Just make sure you follow water-safety rules. Always swim with a grown-up watching you. You should also swim with a buddy. If you don't know how to swim, you can take lessons.

## Wheel Smarts

Richard Hutchings/Corbis

Biking and in-line skating are good ways to exercise. To stay wheel safe, always wear a helmet. It protects your head and brain if you fall. If you are in-line skating, also wear wrist guards, elbow pads, and kneepads.

**Reading Log**-Continue to read 20 minutes each day. I have opened up the ReadWorks library to allow for your child to have access to thousands of digital passages. They may also choose titles using their Epic account. They are familiar with logging in to Epic.

**Spelling** - Thursday-Write spelling words in triangles (they know how) and/or do one activity on Spelling City. They do not have to do both.

## **Supplemental Online Programs (Please check your email for all passwords)**

I strongly recommend having your child spend at least 30 minutes on each of these every day. Students have been working on these in class and should know what to do. I am going to give everyone their passwords in case anyone has forgotten.

**iReady**- Students use this program every day. iReady is adaptive and allows students to work at their ability level. This program does not only focus on math facts, but also mathematical concepts that your child needs to improve upon whether this be below, on, or above grade level. This must be accessed via Chrome. If on mobile, be sure to click desktop site.

<https://login.i-ready.com/>

**Study Island** – This website is aligned with our English Language Arts curriculum and offers lessons and assignments that I have selected for the students to practice.

<https://app.studyisland.com/cfw/login/>

### **Extra Practice (Optional):**

**MathFactsPro**- This website gives students extra practice on their addition and subtraction math facts.

[www.mathfactspro.com](http://www.mathfactspro.com)

**Epic!** Students have used this program every day this year. There are new assigned books in their mailboxes related to current standards. They can also look at the entire library. This website has a feature that only allows students to access during regular school hours (Monday-Friday). If you try to access outside those hours, you will get a message asking you to upgrade. This isn't necessary if they access during typical school hours.
